Danijel Susaković

SOFTWARE ENGINEER

✉ susakovich@gmail.com   📍 Bosanski Šamac, Bosnia & Herzegovina   📞 38762878371

Profile

As a detail-oriented software engineer, I am passionate about developing high-quality web applications that exceed expectations. I thrive on dynamic teams and welcome new challenges in the ever-evolving field of web development. I am committed to mastering the MERN stack and improving my skills while focusing on attention to detail, problem-solving, and collaboration. I am always eager to expand my skill set and take on exciting opportunities in the field.

Employment History

Software Engineer #100Devs

September 2022 — Present

- Collaborate with a diverse community of aspiring developers to learn modern web development skills and best practices.
- Participate in code reviews and pair programming exercises to improve code quality and collaboration skills.
- Build responsive and accessible web applications that follow web standards and accessibility guidelines.
- Embrace a growth mindset, take risks, and challenge oneself to continually improve skills and knowledge in web development.

Technical Support, DSL Elektronika, Gradačac

December 2010 — January 2013

Technical support professional for an ISP assists customers with internet connectivity issues, requiring technical knowledge, communication skills, and the ability to work under pressure. Responsibilities include troubleshooting, configuration, billing inquiries, and ensuring prompt support for customer satisfaction.

Network System Administrator, DSL Elektronika, Gradačac

January 2013 — Present

As a network and systems administrator, I manage and maintain computer network systems by installing equipment, monitoring performance, troubleshooting issues, implementing security protocols, and collaborating with my IT team. My focus is to ensure the network infrastructure is reliable, secure, and up-to-date.

Education

Economic Technician, SSC Nikola Tesla, Samac

September 2005 — June 2009

PHP Web Developer, ITAcademy, Banja Luka

September 2019 — December 2020
